

APPENDIX III
CHARTS

GROSS NATIONAL PRODUCT AT CURRENT FACTOR COST PRICES

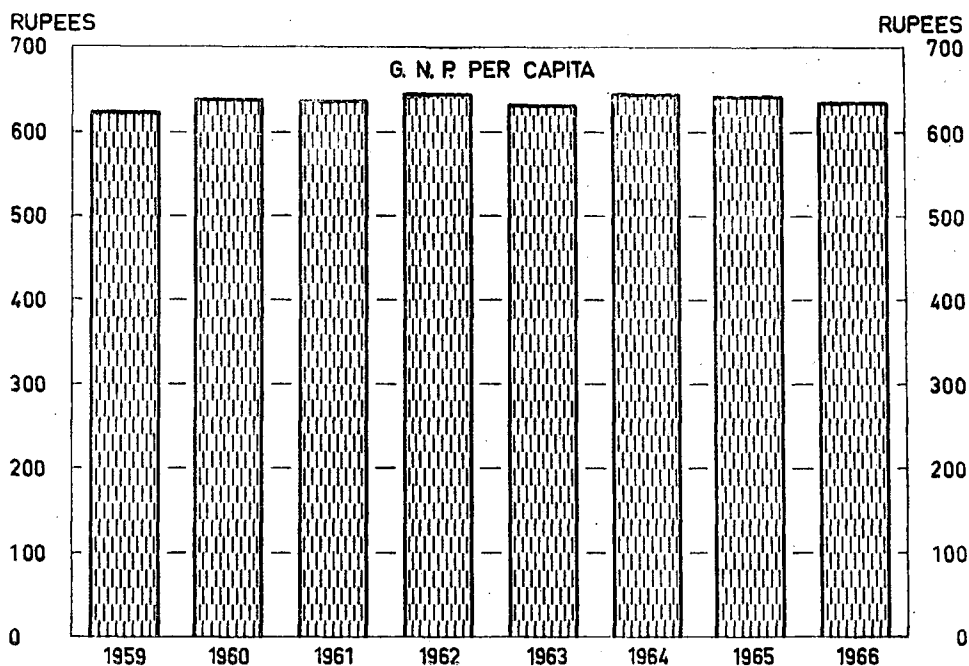

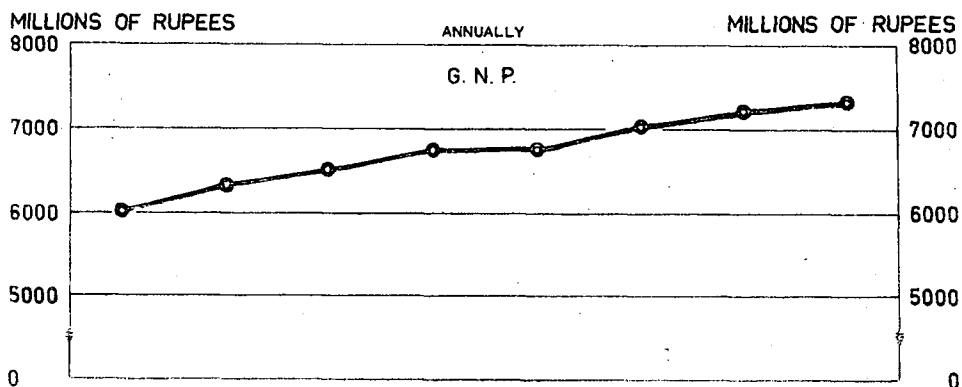

Dept. of Economic Research.

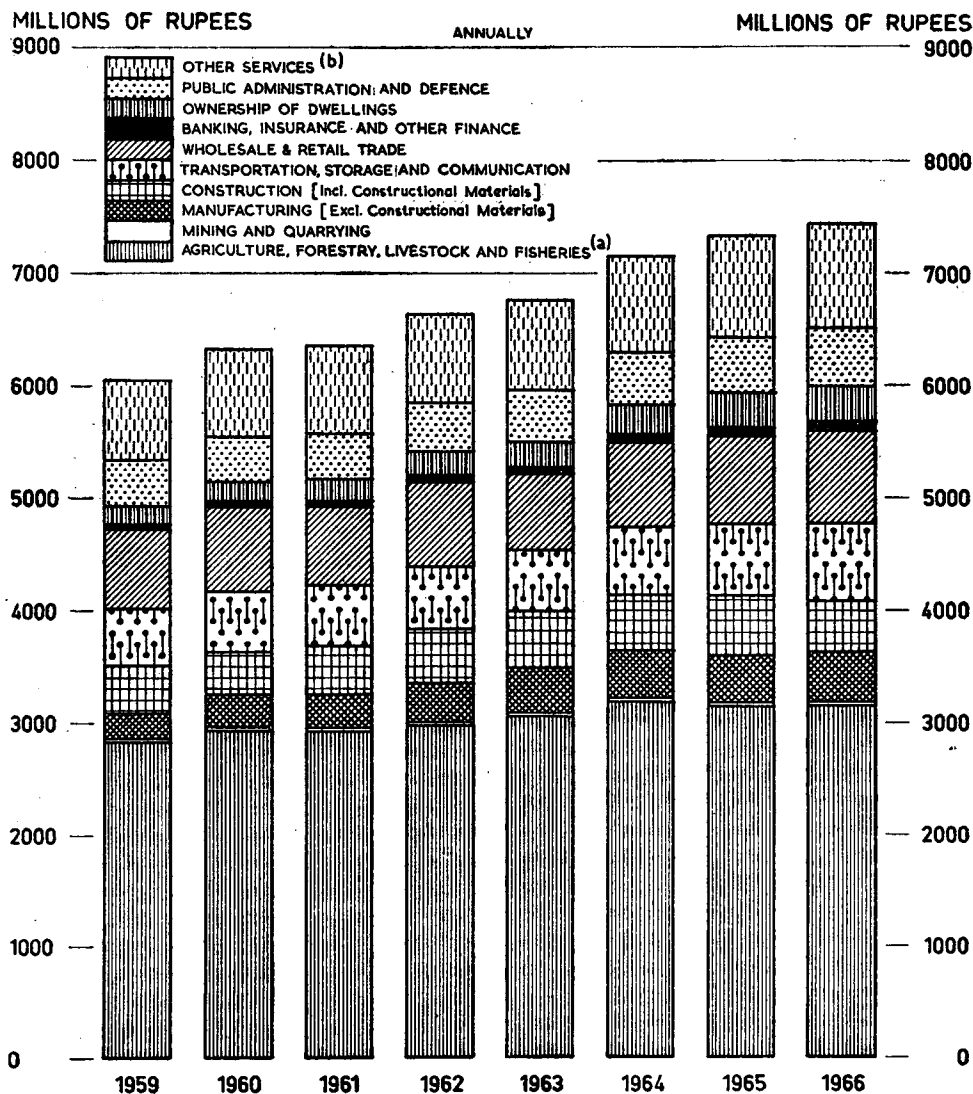

Source: Central Bank of Ceylon.

The figures and indices for the years 1956 to 1958 are not strictly comparable with the figures and indices for the years 1959 to 1966. The complete series in this chart has been obtained by linking the series for the years 1956 to 1958 with the present series for the years 1959 to 1966.

GROSS NATIONAL PRODUCT AT CONSTANT (1959) FACTOR COST PRICES

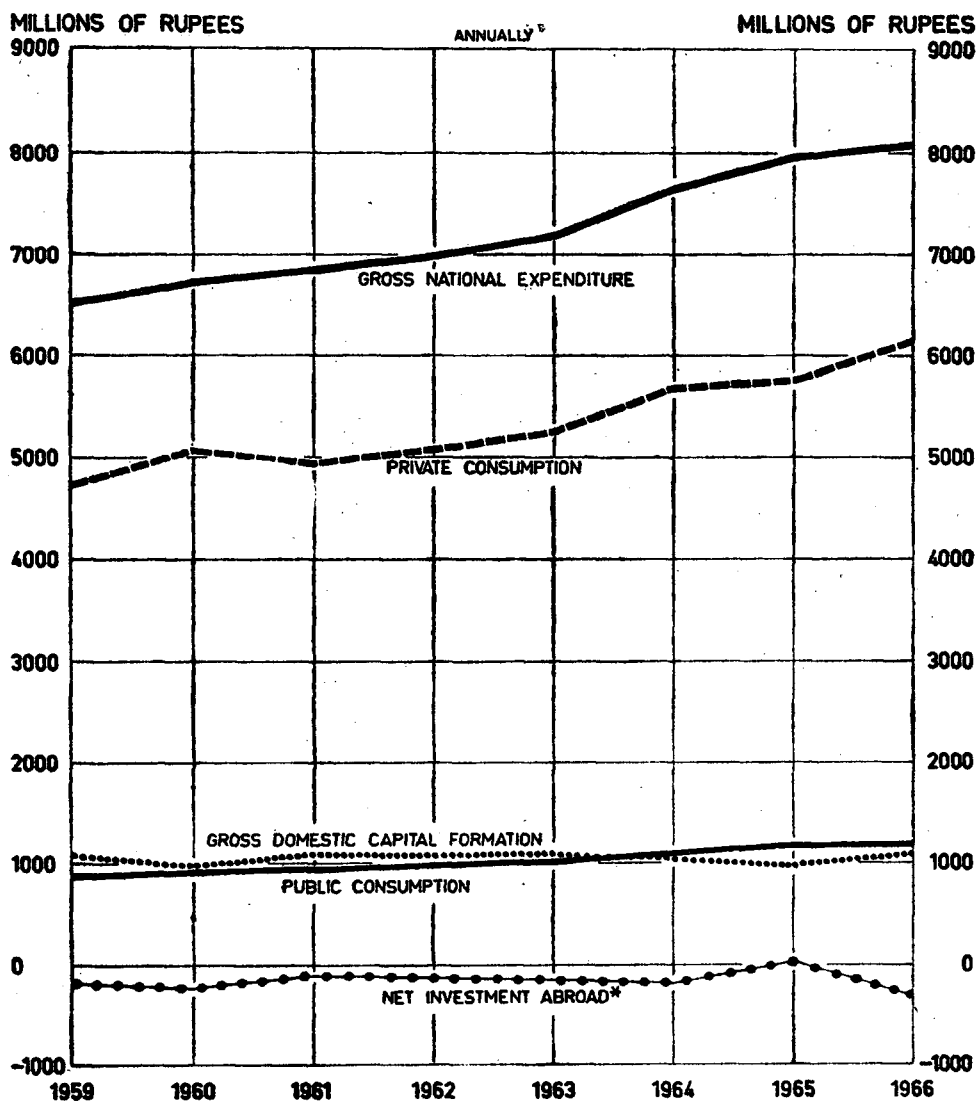

GROSS DOMESTIC PRODUCT BY INDUSTRIAL ORIGIN AT CURRENT FACTOR COST PRICES

(b) Incl. Govt. Medical, Health, Educational, Broadcasting and Meteorological Services.

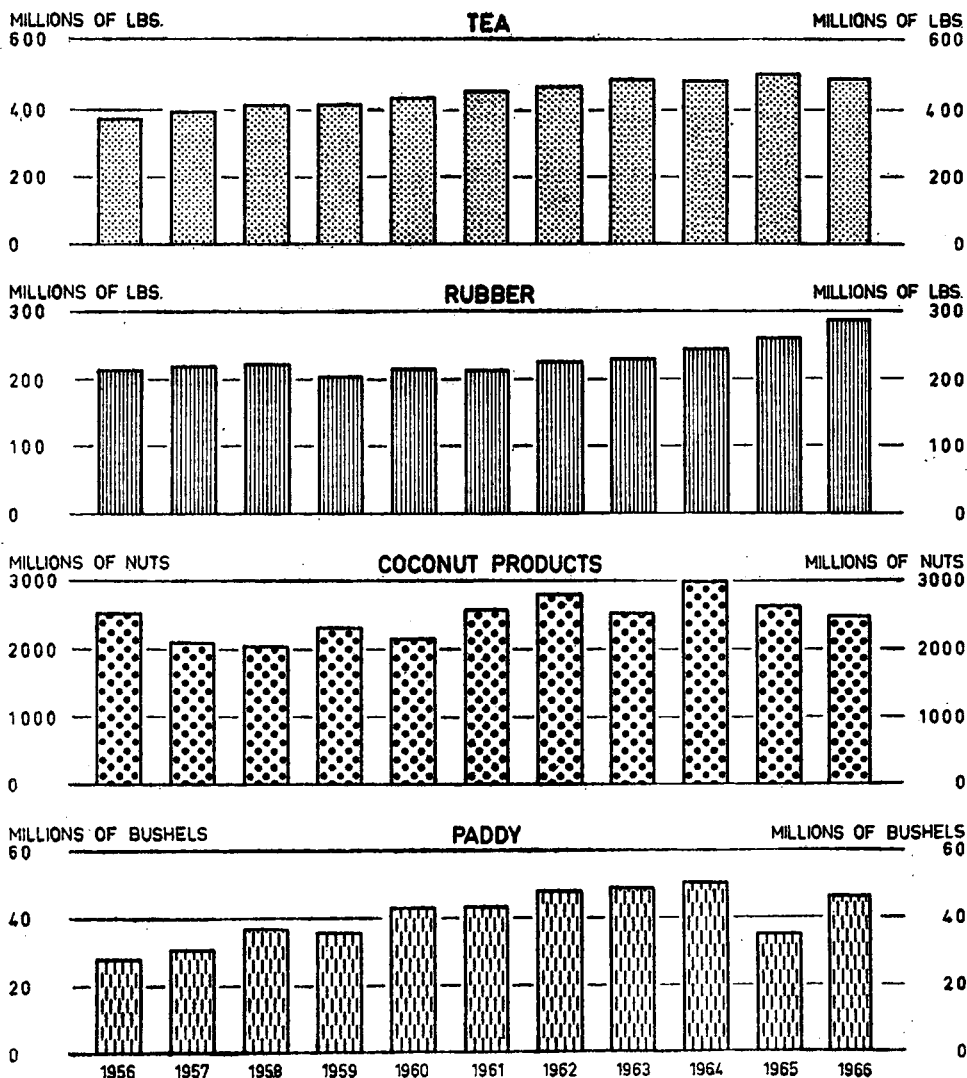

GROSS NATIONAL EXPENDITURE AT CURRENT MARKET PRICES

* LESS NET RECEIPTS OF INTERNATIONAL GIFTS
AND TRANSFERS

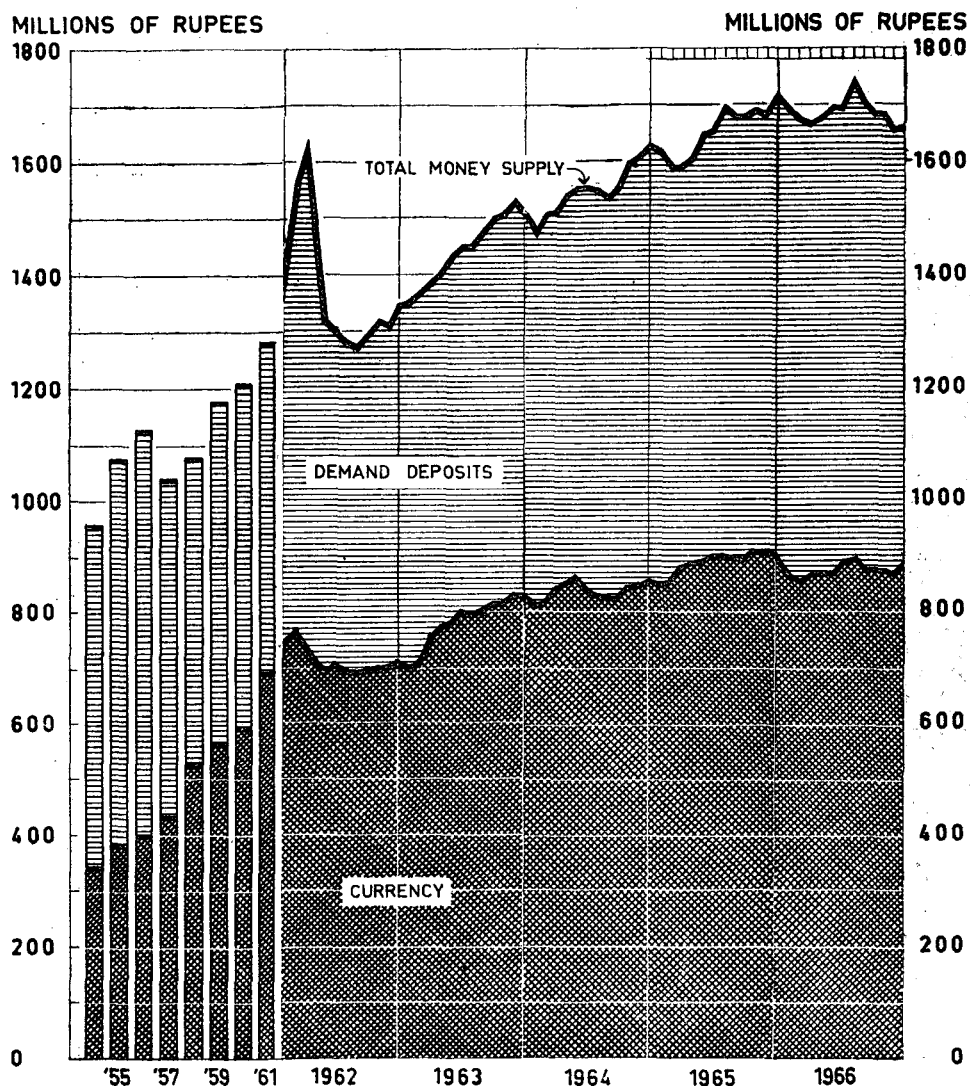

PRODUCTION OF PRINCIPAL AGRICULTURAL CROPS

ANNUALLY

MONEY SUPPLY

END OF YEAR 1954-1961: END OF MONTH JANUARY 1962

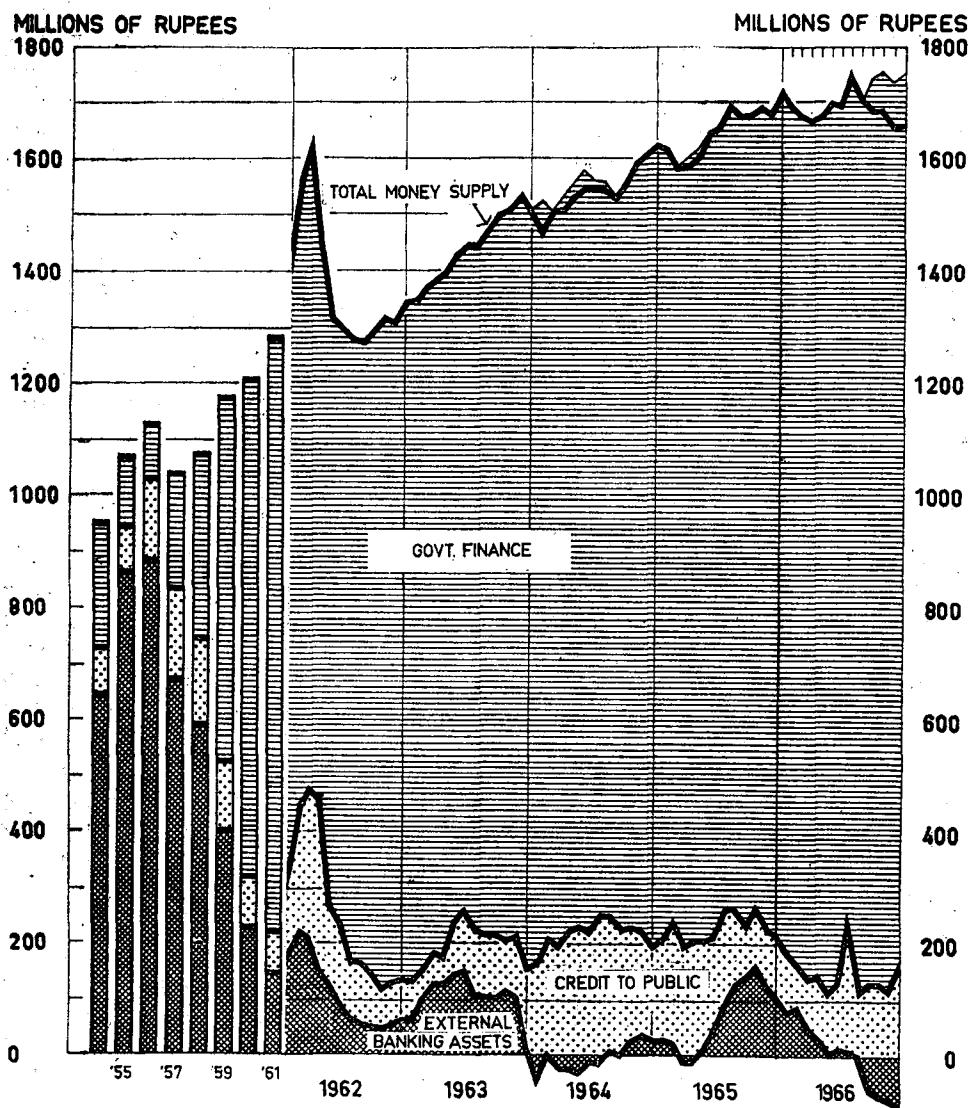

Dept. of Economic Research

Source: Central Bank of Ceylon

Money Supply is defined as "all Currency and Demand Deposits owned by persons other than Commercial Banks and the Government."

SOURCES OF MONEY SUPPLY

END OF YEAR 1954-1961, END OF JANUARY 1962

Dept. of Economic Research.

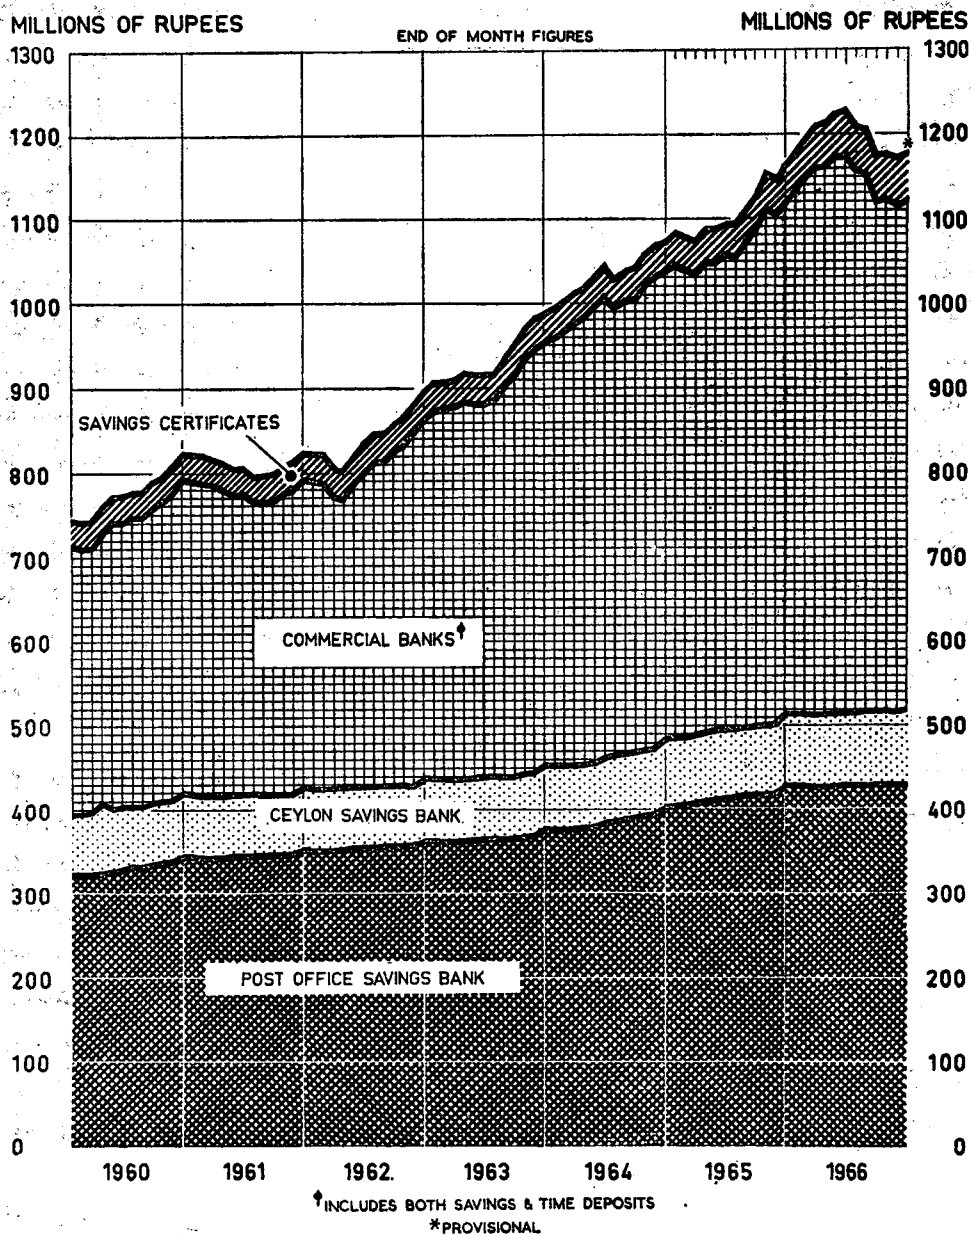

Source- Central Bank of Ceylon

This chart indicates the origin of Money Supply in Ceylon.

- (a) "Government Finance" — shows the claims of the Banking system on the Government net of the shift of rupee cash between the Government and the public.
- (b) "Credit to Public" — shows the claims of the Banking system on the private sector net of change in time and Savings Deposits.

The Total money supply line is below the line limiting Government Finance in the months of January, March to July and September 1964, March and April 1965 and September to December 1966, because net external banking assets were negative in these months.

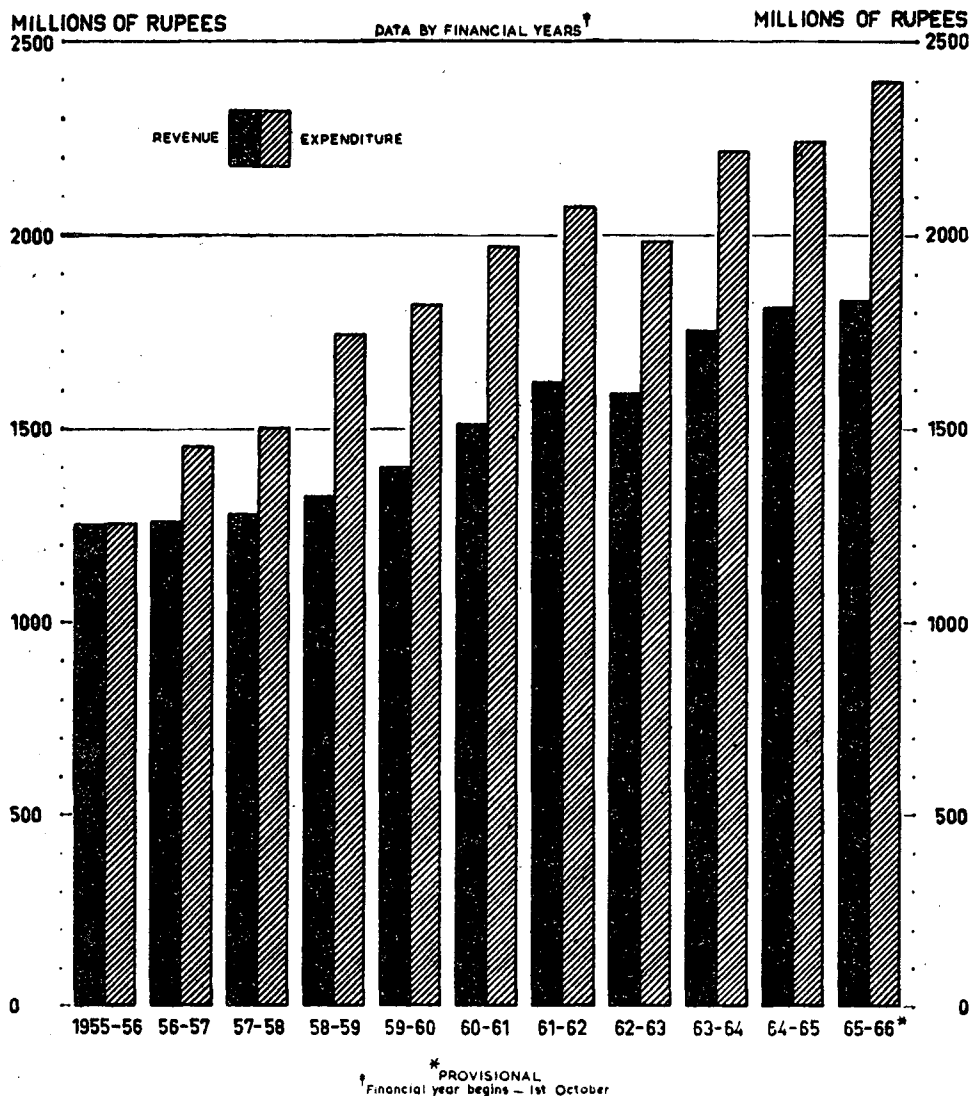

SAVINGS DEPOSITS & SAVINGS CERTIFICATES
