Money Supply is defined as "all Currency and Demand Deposits owned by persons other than Commercial Banks and the Government".

# SOURCES OF MONEY SUPPLY

END OF YEAR 1959-1966. END OF MONTH, JANUARY 1967 -

Dept. of Economic Research

Source: Central Bank of Ceylon.

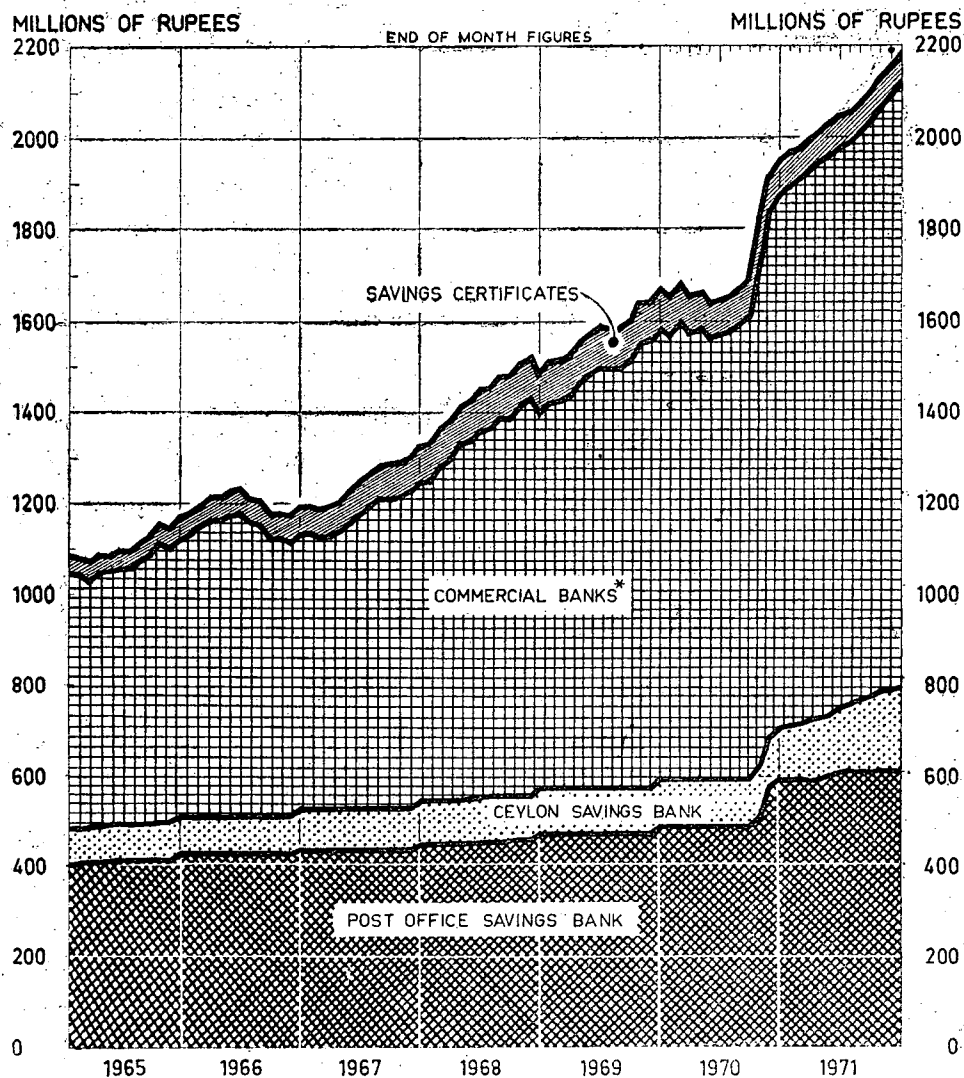

This chart indicates the origin of Money Supply in Ceylon.

- (a) "Government Finance" shows the claims of the Banking system on the Government net of rupee cash holdings of the Government.
- (b) "Credit to Public" shows the claims of the banking system on the private sector net of time and savings deposits.

The total money supply line is below the line limiting government finance in the year 1966 and in the months of January 1967 to December 1971, because net external banking assets were negative in these months.
