(a) The Central Bank began publishing National Accounts estimates in 1959. Estimates for the period 1950 - 1958 have been computed using the growth rates in "Estimates of Sri Lanka's Gross National Product from 1950 - 1981", T. Savundranayagam, Staff Studies Vol. 12 No.2 September 1982 and Vol. 13 No.1 and 2 April - September, 1983. Therefore, from 1950-1958 the sum of sectoral shares does not add to 100%. National Accounts data from 2003 onwards are based on the estimates of the Department of Census and Statistics (DCS) with base year 2020. From 2010 onwards, data are based on the GDP estimates of the DCS with base year 2010. The base years of National Accounts estimates were revised in 1970, 1982, and 1996 by the Central Bank and in 2002 and 2010 by the DCS.

The GDP and GNI estimates of the Central Bank before the base year revisions are given below.

1970: GDP (current factor cost prices) = Rs. 11,705 mn, GNI (current factor cost prices) = Rs. 12,671 mn
1982: GDP (current factor cost prices) = Rs. 91,943 mn, GNI (current factor cost prices) = Rs. 89,609 mn
1996: GDP (current factor cost prices) = Rs. 1,636,037 mn, GNI (current factor cost prices) = Rs. 1,611,994 mn
GDP and GNI estimates of the DCS before the 2010 base year revision is given below.

2010: GDP (current market prices) = Rs. 1,636,037 mn, GNI (current market prices) = Rs. 5,534,327 mn

GDP and GNI estimates of the DCS before the 2010 base year revision is given below.

2010: GDP (current market prices) = Rs. 5,604,104 mn, GNI (current market prices) = Rs. 5,534,327 mn

Central Bank of Sri Lanka

This series has been computed by splicing several series of implicit GDP deflators obtained with different base years. Hence, it would differ from a series compiled using the current and constant values of GDP.

⁽a) Replaced with Secondary Income (net) based on the BPM6 format, from 2012

Source: Central Bank of Sri Lanka

⁽a) Replaced with Secondary Income (net) based on the BPM6 format, from 2012
(b) From 2010 onwards, data are based on the GDP estimates of the DCS with base year 2010.
(c) Replaced with 'Loans - other sector - long term' under 'Net Incurrence of Liabilities' based on the BPM6 format, from 2012
(d) Replaced with 'Loans - government - long term' under 'Net Incurrence of Liabilities' based on the BPM6 format, from 2012
(e) Based on the BPM6 format, financial account (net) data are represented as Net acquisition of Assets - Net Incurrence of Liabilities from 2012 onwards.
(f) Includes net increase/decrease in reserve assets and reserve related liabilities based on the BPM6 format, from 2012
(g) Trade indices are calculated with a wider coverage using 2010 as the base year, from 2007.

Central Bank of Sri Lanka

 ⁽a) Excludes foreign assets in the form of 'Direct investment abroad' and 'Trade credit and advances granted'
 (b) Total external debt includes banking sector liabilities, from 2011.
 (c) From 2010 onwards, data are based on the base year (2010) GDP estimates of the DCS.
 (d) As a percentage of earnings from exports of goods and services. Debt service payments were reclassified to capture debt servicing of foreign holding of Treasury bills and bonds in accordance with the External Debt Statistics Manual (2003) of the International Monetary Fund (IMF), from 2008.
 (e) Special Drawing Rights (SDR), the unit of account of the IMF
 (f) Offshore Banking Units are treated as a part of the domestic banking system, from 1994.
 (g) Revised
 (h) Provisional

(</sup>a) NDA is equal to the sum of net credit to government (NCG), claims on public corporations, claims on private sector and other items (net).

(b) Demand deposits held by the public

(c) Time and savings deposits held by the public

(d) This includes NFA of the Central Bank as well as the government's Crown Agent's balance reported by the Department of State Accounts.

(e) The Central Bank adopted International Accounting Standards in January 2002. Accordingly, since then foreign assets are recorded at market value, which reflects its impact in NFA and NDA of Monetary Authorities. Therefore, the values for the period prior to January 2002 are not comparable with the values thereafter.

(f) Credit extended to the government by the banking system, net of government deposits with banks and government's cash balances

(g) The data on velocity of money for the period from 2010 to 2014 were revised using the rebased estimates of GDP by the DCS.

(h) Monetary data since 1990 were reclassified to be consistent with standard international practices. Accordingly, rupee deposits held by non-residents are excluded from the total demand, time and savings deposits held by public. The excluded amount is classified under foreign liabilities.
